HARLEY RENDEZVOUS

**At The Only
Biker's Country Club
In The Country!**

If summertime has you pining for an old-school Biker party, then mark your calendars, pack your camping gear and head to Pattersonville, New York for the 2025 Harley Rendezvous Classic, June 26-29. This annual event started back in 1979 and is held at the Indian Lookout "Country" Club in Pattersonville—just 23 miles from Albany, NY.

Indian Country Club bills itself as the only country club in the country that is exclusively for Bikers-only. Don't expect to find traditional country club facilities. There's no golf course— but you will find 80+ acres of nature reserved for camping and parties, with trees, rolling hills and even streams for casting a line or two.

The Harley Rendezvous Classic is held on the campground and there's plenty of space for your RV and your Harley. We can assume that all bikes are welcome but there's a chance that if you pull up on anything but a Harley, you might feel a bit out of place. Even so, the event boasts loads of games, races, music with 2 stages featuring Regional bands, tattoo and wet t-shirt contests, along with a Great American Rodeo.

Laconia's Bike Week

102 Years and Going Strong

June 14-22, 2025 marks the 102th anniversary of the Laconia Motorcycle Week in Laconia, New Hampshire. Called the "World's Oldest Motorcycle Rally," this event is truly one-of-a-kind. Although it may be the oldest rally, what makes motorcycle enthusiasts return year after year is its unmatched scenic riding opportunities throughout the beautiful state of New Hampshire. While June temps may rise and leave you sweltering in other parts of the country, New Hampshire's mix of winding roads and gentle New England breezes offer a promise of comfortable good times, even in full gear.

Beginning at 8 am on Saturday, June 14 and running through midnight June 22, Laconia offers loads of opportunities for fun. You can join other amateur riders who fight their way up the historic 70-meter Torger Tokle Ski Jump in the Gunstock Hill Climb. Enjoy numerous gypsy rides, live music, food, entertainment, contests and more. This historic week draws more than 300,000 Bikers from across the country!

HAPPY FATHER'S DAY

PRE-ROADTRIP

Before you hit the open road take time to give your bike a little pre-game TLC. Here's a guide for making your summer riding season a success: (Your bike will thank you...)

Summer Motorcycle Maintenance Checklist

1) Visual inspection: Start by giving your bike a close examination. If you have had your motorcycle sitting in your garage for a while, look for leaks and investigate the source, so you can address any problems right away.

2) Get out your grease gun and give fittings any needed lubrication.

3) Tires: Examine tread carefully. The actual condition of your tire is more important than its age. Look to see if the wear bar is flush with the surface of the tire and check wheel bearings too. Adam Ponzek has a great checklist with detailed info to help you cover all the bases. Go to www.revzilla.com/common-tread/basic-motorcycle-maintenance-checklist-9-simple-steps-for-a-worry-free-riding-season

4) Test your lights and horn. When you need them is not the time to find out there's a problem.

5) Battery: If you've kept your battery on a charger off-season, then you should be good to go. If not, then

plug it into a battery tester to check its status. Clean terminals and inspect fuses. If your battery is 5 years old or more, then it is probably time to start thinking about a replacement, even if it seems fine now.

6) Examine brake pads, lines and fluid levels.

7) Cooling system: Flush with water and add fresh coolant as needed.

8) Oil change: If you did not take care of this before storing your bike last season, then it's a good idea to change your bike's oil now.

9) Mirrors: Make sure yours haven't come loose.

10) Clutch and throttle: Make sure they are smooth and adjust if needed. Use cable lube if necessary.

While it's tempting to just jump on your bike and head out to soak in some summer sun, remember that an ounce of prevention is worth a pound of cure. (As the sagely Ben Franklin once said.) It made sense then and makes sense today!
